ACTION: Notice of Application.

SUMMARY: Powerex Corp. (Powerex or Applicant) has applied to renew its authority to transmit electric energy from the United States to Mexico pursuant to the Federal Power Act.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. §§ 7151(b) and 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. § 824a(e)).

On February 19, 2014, DOE issued Order No. EA-145-E to Powerex, which authorized the Applicant to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. That authority expires on

February 19, 2019. On October 22, 2018, Powerex filed an application with DOE for renewal of the export authority contained in Order No. EA-145-E for an additional five-year term.

In its application, Powerex states that it “does not own any electric generation or transmission facilities and . . . does not hold a franchise or service territory or native load obligation.” The electric energy that Powerex proposes to export to Mexico would be purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential Permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.
